

# Abdullah Naeem

AI Engineer | Backend Developer

 muhammadabdullahnaeem1.github.io |  github.com/MuhammadAbdullahNaeem1

## SUMMARY

AI Engineer with experience deploying production-ready AI applications, specializing in **LLMs**, **AI agents**, **RAG systems**, and **backend development**. Proficient in building scalable APIs, intelligent automation solutions, and cloud-ready architectures using **Python**, **FastAPI**, and **Django**.

## EXPERIENCE

### AI Backend Engineer

Jul. 2025 – Present

*Techlogix*

- Built and scaled AI-powered backend systems using **Python**, **FastAPI**, **Django**, **LangGraph**, and vector databases, enabling semantic search, RAG pipelines, intelligent automation, and AI inference workflows for enterprise applications processing **1,000+** medical imaging records, contributing to a **21%** improvement in diagnostic accuracy over older workflows.
- Engineered secure, cloud-native **REST APIs** and microservices on **AWS EC2** with **Nginx**, reducing average API response latency by **27%** over two months through caching and query optimization.
- Integrated deep learning models, computer vision pipelines, and **Redis** caching to deliver a reliable and high-performance AI application.
- Implemented **Docker**-based **CI/CD**, scalable database design, authentication, and high-volume data processing to improve reliability across healthcare and retail domains.

### Software Engineer

Mar. 2025 – Jun. 2025

*Contour Software*

- Developed AI backend systems with **Python**, **FastAPI**, **Django**, **LangGraph**, and **ChromaDB** RAG pipelines, semantic search, and multi-agent workflows.
- Built AI-driven backend APIs for customer support, integrating **LLMs**, vector embeddings, and document retrieval to automate ticket routing and improve response accuracy.

### Web Development Intern

Jun. 2024 – Aug. 2024

*Wateen Telecom*

- Designed and developed secure **RESTful APIs** to enable smooth cross-platform communication, third-party integrations, and efficient data exchange.

## SKILLS

**AI & LLM Tooling:** LangChain, LangGraph, RAG Pipelines, Prompt Engineering, Model Integration Workflows

**Backend:** FastAPI, Django, REST API Architecture

**Languages:** Python, JavaScript

**Databases:** PostgreSQL, MySQL, MongoDB, Vector Databases

## EDUCATION

### FAST-NUCES

*Bachelor's in Computer Science*

Aug. 2021 – Jun. 2025

Lahore, Pakistan
